

To Whom It May Concern

This is to certify that **Syed Abdullah Ahmed** worked as a **Software Engineer Intern** on the backend team at **Alethea AI** from **9th May, 2024** to **2nd August, 2024**.

During his 3-month internship, Syed Abdullah developed a deep understanding of OOP concepts, design patterns, and algorithms, which he applied to enhance problem-solving and coding skills. He became proficient in the Django framework, executing tasks such as CRUD operations, rendering templates, and managing databases, etc. Additionally, he gained hands-on experience with FastAPI, using tools like Postman and DBeaver to perform API testing and database management. Abdullah also played a crucial role in code cleanup, optimizing the codebase by removing obsolete variables and APIs, and contributed to blackbox testing on DevApp, identifying and helping to resolve critical bugs.

Beyond his technical contributions, Abdullah consistently demonstrated excellent communication skills, a collaborative spirit, a strong willingness to learn and the ability to work effectively in a team.

We believe Abdullah has a bright future ahead and will be an asset to any organization.

Sincerely,

Fahad Sabeeh Hussain
