Experience

Software Engineer Intern - Backend Team

May 2024 - August 2024

AletheaAI

Singapore

- Gained practical experience with **Django** and **FastAPI**, working on CRUD operations, rendering templates, writing views, querying databases, and using tools like **Postman** and **DBeaver** for API testing and database management
- Optimized codebase by auditing and removing obsolete environment variables and APIs
- Performed **blackbox testing** on the company's dApp, identifying and fixing critical bugs to improve overall reliability

Co-Founder, CEO

May 2020 - February 2023

Rozgari

Remote

- Co-founded a platform connecting daily-wage workers to customers during the COVID-19 pandemic; raised **1,000,000 PKR** through marketing campaigns and outreach initiatives
- Developed and promoted an online and SMS-based booking system, achieving **5+** daily service bookings within the first year
- Led customer acquisition and service provider on-boarding efforts, on-boarding over **25** service providers in **18** months
- Built marketing strategies to drive platform traffic, improving customer engagement and retention through personalized communication and targeted promotions
- Strengthened client relationship management, handling customer inquiries, resolving issues, and ensuring service satisfaction to maintain a high repeat booking rate

Extracurricular Activities

Lead Director - Career Panel Sessions | *Python, PostgreSQL, FastAPI*

2024 - 2025

- Spearheaded outreach efforts to industry leaders across technology, finance, and healthcare sectors; successfully negotiated and secured panelists for major career events with **800+** participants
- Coordinated event logistics including panel schedules, venue setup, and speaker arrangements, ensuring seamless flow and professional delivery
- Strengthened sales and persuasion abilities by pitching event value propositions to potential speakers and negotiating contracts

General Secretary - Computer Society | *JS, HTML, CSS*

2021-2023

- Led and mentored a club of **50+** members, teaching workshops on Python programming and 3D modeling; improved member engagement through hands-on projects and national competition participation
- Organized and managed multiple technical events, coordinating logistics, schedules, and teams to ensure smooth execution under tight deadlines
- Developed strong communication and leadership skills by mentoring junior members and managing diverse team dynamics across events

Director IT - Science Society | *JS, HTML, CSS*

2020-2023

- Organized and supported event operations for a national-level science and engineering competition hosting over **900** participants; managed IT logistics and participant communications
- Led a cross-functional team to develop and maintain event websites, registration systems, and digital materials, contributing to record event turnout
- Built critical project management and problem-solving skills through coordinating technical and operational needs under high-pressure environments
